

Collective Reflection Prompts for Common Table Watch Party Reports

1-2 pages single spaced

Due to David Chao (David.chao@ptsem.edu) by April 27, 2026

1. Shared Learning and Insight

Across the four sessions you watched together, what ideas, frameworks, or perspectives did your group find most meaningful, surprising, or generative? Please name specific themes or moments from the sessions and include brief quotes or paraphrases from multiple participants that reflect what was genuinely new, clarifying, or challenging for your group.

2. Resonance with Lived Context

How did the conference content resonate with your group's own life, ministry setting, or organizational realities? Where did participants feel particularly seen, affirmed, stretched, or unsettled in relation to their current practices, pressures, or questions? Please draw on firsthand accounts from several participants to illustrate points of convergence or difference within the group.

3. Practical Application and Future Formation

In light of what you learned together, what concrete changes, experiments, or questions is your group now considering for personal life, leadership culture, caregiving practices, or ministry direction? Looking ahead, what kinds of structured support, accompaniment, or cohort-based formation would most help your group continue this learning over time?
